

CHATHAM HALL SCIENCE CAMP

June 16-21 • Ages 10-14

Investigate what is going on behind the scenes of science, technology, engineering, arts, and math while learning more about Chatham Hall. Our Science Camp develops 21st-century skills in girls.

- Experiment with 3-D printing, laser engraving, and casting with various materials and processes
- Build and program electronic devices and learn how to code them using various sensors
- Get a feel for life at a boarding school
- No experience necessary!
